### "The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of *unknown composition* as a substitute for "Golden Medical Discovery," which is a medicine OF KNOWN COMPOSITION, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

ANOTHER WONDER OF SCIENCE.

**Biology has Proved that Dandruff is Caused by a Germ.**

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

**Two sizes—50 cents and $1.00.**

## Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves — re-establish them as needed, with

### A MEMENTO OF THE PAST.

In looking over a package of old papers this morning I found a copy of the Alexandria Gazette dated February 27, 1823, and published by Samuel Snowden on Royal street. The paper is yellow with the lapse of the eighty-four years, and the imprint is dim. Looking over its twenty columns of news items and advertisements, it seems like a ghost of the long, long ago. There is among its contents an oration before the "Washington Society," commemorative of Washington's birthday. There are the "freshest advices" from Europe, Asia and South America. A correspondent complains of the adverse legislation against the interests of the Alexandria people who were then included within the bounds of the District of Columbia; and there are the usual accounts of storms and floods over the lands and disasters at sea.

The following items from the "commercial column" will seem odd to the stroller along the river front today who sees only deserted landings and hardly a small sloop in the moorings.

"For Amsterdam.—The superior copper fastened brig America, Henry Peterson, master; to sail about the 16th instant and will take freight on moderate terms. Apply to Wm. Fowl & Co.

For Freight.—The brig Columbus, Leonard Marbury master, burthen 1200 barrels. Also brig Venus, James Kelly, master, burthen 900 barrels; also the schooner Thomas, Samuel Miller, master, burthen 900 barrels; all good vessels, ready to load, in preference for the West Indies. Apply to John H. Ladd & Co.

For sale, freight or charter—The brig Hope.

For Freight — the schooner Eliza, Capt. Dunning master, 500 barrels bur-

Arrived. — Ships Boston and Fair Trader, ships Ulysses and Martha.

That was a time when expectations of greatness were high with Alexandrians. The town had a high and commanding situation. It had been steadily growing into importance since its founding in 1748, and all the indications were for a populous city. Its outlet to the ocean was by a broad, deep river and a vast region of country bordered it with great natural resources ready waiting to be appropriated for enterprise and thrift.

Ships and other square-rigged vessels of heavy burthen brought to its merchants valuable cargoes from Europe and the West Indies, and caravans of wagons kept up a constant stream of land transportation over the great thoroughfares which had been laid through the wilderness to the mountains and far beyond. They brought in grains and flour from mills remote. From the rich valleys and uplands they brought beef, pork and all other country supplies, and carried back the imported commodities of the ships and also the fish and oysters from the river and bay; also the implements and accessories for the opening of the new lands.

Busy days were they along the river when the merry stevedores unloaded the cargoes from foreign ports and cumbered the docks with hogsheads and bales. Not a railroad had yet been constructed in all the republic, and but for this mode of transportation which came first into use five years after, beginning with the road to Washington from Philadelphia, the old town would doubtless have become a great commercial port and a populous city. With the coming of railway facilities all the conditions upon which the people of the town had relied were radically changed. By them the commerce and trade and the growth were diverted to other points.

Since this paper was printed a lapse covered by the span of many a life-time, strange as it may seem, the world has made more progress in all the departments of the industries and arts, and has wrought more changes by inventions, discoveries and appliances than was made in thousands of years before.

MAYOR'S OFFICE,
Alexandria, Va., June 12, 1907.

All persons owning or intending to keep any animal of the Dog or Canine species should come forward on or before

JUNE TWENTY-FIFTH, 1907,

and take out a license for the same from the Auditor. After the 30th of June all persons owning or harboring Dogs without the required license are subject to a fine as the laws on the subject require of $3.00 or $5.00.

Complaint has been frequently made that many persons fail to take out their license, and that others pay on one or two dogs when owning and harboring more, or who send such dogs away during the summer months and bring them back in the fall.

Attention has been called to this evasion of the law, and policemen will report all such cases and fines can be imposed upon those who fail to take out licenses after trial in the Police Court.

The police officers will be required to report all violations of this law.

In order to avoid any mistakes persons who make application for licenses would do well to write their names and number of residence, street, etc., on a card or paper when making application for licenses to the Auditor.

FRED. J. FAFF, Mayor.

AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, JUNE 19, 1907.

THE Thomas Jefferson Memorial Association, the object of which is to erect at the national capital a suitable memorial to the author and other signers of the Declaration of Independence, naturally appeals to all lovers of the early history of the United States, and especially to the many who desire to keep green the memory of the fathers of the republic who laid their all upon the altar of their country at a time when patriotism was dangerous and a man took his life in his hands in signing an instrument which defied George III. The Buffalo Enquirer recently contained the following concerning the organization referred to:

The country is to have another great patriotic society. It is to be the child of the Thomas Jefferson Memorial Association, and the first move for its organization will be at the Jamestown Exposition on the Fourth of July, when the lineal descendants of the signers of the Declaration of Independence meet. Several thousand descendants of the signers have signified their intention to attend this meeting and are manifesting great enthusiasm over the project. The promoters believe it will be the greatest gathering Jamestown will record during the season. That there is a call for a patriotic society such as the Memorial Association suggests there is no doubt. There are thousands of the lineal descendants of the signers scattered all over the country, and they can do much toward promoting true patriotism by uniting in a society and holding conventions and reunions similar to those of other patriotic organizations. One thing a society of this kind will do if northern people encourage it — help greatly to cement the ties that now bind north and south together as one great country, for many of the signers' descendants are southern people and if the society is organized on southern soil and northerners give it the hearty support it deserves, the former will feel that the latter really recognize the people of Dixie as being as loyal Americans as those in Yankeeland. We northerners know this to be true, and here is an excellent opportunity presented to convince our southern friends of the fact. So let every western New Yorker who claims to be a descendant of a signer of the Declaration attend the Jamestown rally and encourage this latest patriotic move. The Thomas Jefferson Memorial Association, which is responsible for this movement, was chartered by Congress several years ago. It has for its object the erection of a Jefferson memorial building on one of the government reservations in Washington. Hollins Randolph, an Atlanta, Ga., lawyer, and a lineal descendant of the author of the Declaration of Independence, has been selected to read this famous instrument at the Jamestown celebration.

SIR FREDERICK TREVES, physician to the King of England, speaking at the opening of a London Hospital recently, expressed the belief that the time was not far when bottles on doctors' shelves would be reduced to a very small number, and when people would "leave off the extraordinary habit of taking medicine when they are sick." At that time people would resort to simple living, suitable diet and plenty of sun and fresh air. He also said the time would come when it would be as anomalous for people to die of scarlet fever, typhoid, cholera and diphtheria as it would be for a man to die of a wolf's bite in England. He referred to the discoveries in bacteriological science as being capable of reducing mortality from infectious diseases to the zero point. These promises have been made from time to time for years past but they have not yet been fulfilled. That the taking of medicine, however, is a habit is held by many, both doctors and laymen, and it is becoming to be quite generally accepted that the best doctors are those who give the least medicine.

REV. DR. JAMES H. ECOB has been forced to retire from the pulpit of the fashionable First Unitarian Church in Philadelphia because he wore untidy clothes and was not "good looking," Dr. Ecob Sunday preached a sermon to his flock from Matthew, xi:17: "We have piped unto you and ye have not danced. We have mourned unto you and ye have not lamented." He characterized his hearers as a bridge whist coterie and a pink tea party.

THE Rodgers Locomotive Works, at Paterson, N. J., has been so troubled by the strike of the blacksmiths and hammermen, growing out of their personal objection to the new general foreman, Brown, who comes from the West with a reputation as a wage cutter, that there is serious talk of closing the big plant indefinitely. This shop is one of the branches of the American Locomotive Company and employs 2,000 men.

CAPTAIN WINSLOW, said to be the richest officer in the United States navy and commander of the cruiser Charleston, has paid $205 in duties on wines, tobacco and curios he landed at San Francisco. He had previously sworn that he had loaded no dutiable goods. This is a pretty example for an officer who is sworn to uphold the laws of his country to set others.

DISPATCHES from Chicago say that the strike cloud is passing away. The dispute between the teamsters and their employees is to be settled by arbitration. It is believed the two sides will agree on some plan of settling their dispute which will be satisfactory to each.

## From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, June 19.

Secretary Garfield is not disappointing his friends who predicted, when he was appointed to the Department of the Interior that he would turn things around in that hitherto easy-going branch of the government. One by one the sharpsters, who have been making thousands of dollars through advance information and malpractice before the department are being brought to book. Every bureau is being overhauled and search made in obscure corners for clues to underhand transactions. Secretary Garfield has put into effect methods that are found in big department stores. Clerks who won't hustle are weeded out and supplanted by others. Commissioner Warner of the Pension Bureau, who recently cited several of the most prominent pension agents to show cause why they should not be debarred, has made it known that no leniency will be shown in any quarter. Commissioner Moore, of the Patent Office, has taken the tip and set things stirring. Commissioner Ballinger, of the general land office, has cleaned up the May office in a general way, and, with the secretary, is now taking notes of operations in the field.

The thread trust is to be investigated by the Department of Justice. Formal complaint has been made to the department, alleging that the American Thread Company is a monopoly in restraint of trade and asking that it be dissolved through the federal government. About two weeks ago local retail dealers were informed that the wholesale price of thread was advanced from 55 to 62 cents per dozen spools. This has compelled the retailers to raise the price to their customers, from 5 to 6 cents per spool. The dealer who made the complaint, said today: "The excuse for the advance was the poor crop of cotton early in the season. But as the season has progressed, the crops have measured up to the standard, and there seems to be no well grounded reason for putting the prices up." The American Thread Company was formed several years ago, some of the constituent companies being the S. and P. Coates Company of Rhode Island, the Williamantic Company, of Connecticut, and the Clark Company, of New Jersey.

Rear Admiral Emory, the senior officer at Hampton Roads just now, today brought to the Navy Department the report of the board of inquiry which investigated the recent deplorable accident to the steam launch of the battleship Minnesota which resulted in the drowning of six young naval officers and five seamen. It is the opinion of the board that the launch was struck by the steel hawser of the tug bow Crisfield which was towing a float of railroad cars from Cape Charles to Norfolk at just about the time the accident occurred. The report of the board places no blame upon the crew of the tug none of whom was aware that any accident had occurred until the next day. Secretary Metcalf is not altogether satisfied with this report, and he has ordered a further investigation.

Competition among ship builders for the contract of building the two American battleships of the Dreadnought type is not so keen as officials of the Navy Department would like. The bids are to be opened at noon tomorrow.

At the time the San Francisco school question was up, Secretary Bonaparte was known to scout the danger of conflict, and it was hinted in naval circles that Secretary Metcalf was brought to the navy department to prosecute his policy of increasing the naval strength in the Pacific.

Baron Speck Von Sternberg, the German Ambassador, and a close friend of President Roosevelt, is expected to resign from public service, some time in the fall. Ill health will be the cause. A hint of this has already come from Berlin, but it was unnecessary to any one who saw the baron before he left here on his vacation. Few of his friends thought he would ever come back. He has, however, decided to do so. He will make his summer headquarters in New Hampshire, but after President Roosevelt returns to Washington next October, it will probably be announced that Sternberg has resigned. The reason is purely physical. One side of his face is being gradually eaten up by a malignant growth, the nature of which has not been determined, and which has resisted the efforts of the most skilled physicians of the world. Some say it is a cancer. The ambassador himself attributes it to the bite of a poisonous insect. This terrible disfigurement is an insurmountable handicap in the ambassador's social duties.

The suggestion that the entire battleship squadron of the American navy be sent to the Pacific coast has been vetoed by the administration. There has been more or less talk of taking such a step as a precautionary measure of the anti-American agitation in Japan, and it is known that the general board of the navy has for months been working out strategical problems in which the Pacific ocean is the principal scene of hypothetical activity. Whether or not the board has actually reported in favor of concentrating the heavy fighters of the navy in those waters, nobody in authority at the department will say. No secret is made, however, of the fact that the matter has been a subject of discussion. Any movement of vessels to the Pacific coast at this time would be frowned upon by Japan and might be construed as a hostile manifestation. Officially there is no trouble between the two governments.

Captain Horace F. B. Browne, of Westfield, Scotland, much plastered with bandages over his nose and face, and with his right arm in a sling, procured a marriage license at the City Hall today. On cross examination in the Holmes trial today, Broker Louis Van Riper was asked concerning the interview he had with Secretary Wilson, when he tipped off Holmes's alleged method of advance information. He said he did not have any grudge against Holmes, but believed Holmes's conduct was immoral, and would tend to upset the market, so that men connected with the conditions would be unable to operate in a fair and square way. "I did not tell Secretary Wilson of the connection of Hess and Peckham in the case, because I did not want to bring their names into the case," he declared.

Supervising Inspector General Uhler, of the steamboat inspection service, returned today from investigating the sinking of the launch of the battleship Minnesota, in Hampton Roads, which caused the loss of eleven lives. ### SHOT GIRL AND KILLED HIMSELF.

A dispatch from Snow Hill, Md., says that Miss Bessie Lambertson was shot and wounded Monday night by Lodie Davis, a rejected suiter. He then committed suicide.

This tragedy, following so closely upon the shooting of Alfred G. Strickland, has thrown the lower part of Worcester county into a fever of excitement.

Miss Lambertson, who is 17, was out driving with Davis, who had been her suitor for some time. On Monday night their route was through Stockton to Klej Grange, near which place the shooting occurred. They left the home of Miss Lambertson about 8 o'clock and were seen by several persons along the road.

The drive was not marked by any unusual occurrence until Klej Grange was reached and it was there that Davis asked Miss Lambertson if she would marry him. She replied that she never exected to marry him. Upon this reply, Davis drew a pistol and shot her in the head just above the right eye. The bullet did not penetrate the skull but made a flesh wound, which did not render her unconscious. Davis then asked her:

"Will you marry me now?"

"Not as long as you live," she replied.

He shot her again, this time through the right lung, the bullet being found under the skin of the back.

After the second shot Miss Lambertson told Davis she was dying and wanted him to carry her home. He replied he could not do that. She then fell out of the buggy, the wheels passing over her, breaking her shoulder blade.

About 11 o'clock the family, and especially the mother of Miss Lambertson, becoming uneasy over the delayed return of her daughter, sent her father to look for the couple. About half a mile away from the house he heard faint cries for help and upon a close search found his daughter beside the road. She could give no information about Davis and no one knew of his whereabouts until he was found with two bullet holes in his right temple about 200 yards from the place where Miss Lambertson was shot.

Miss Lambertson's wounds are not necessarily fatal.

### Suicide of Miss Hawxhurst.

Miss Mamie Hawxhurst, adopted daughter of Mr. and Mrs. Job Hawxhurst, both deceased, of Fairfax, died Monday from the effects of poison taken about 11 o'clock the night before. She had been despondent of late, although there was no apparent reason for it. The coroner did not summon a jury, deeming an inquest unnecessary.

Miss Hawxhurst was a prepossessing young lady, twenty-seven years of age, and had a host of friends. She was formerly in the postoffice at Fairfax, later going to Falls Church, where she remained several months. She then returned to Fairfax and made that place her home.

Just before her death she wrote several letters to her nearest friends, but the contents have not been made public. It is understood that she left her personal property and savings to be divided equally among her relatives.

## Today's Telegraphic News.

### The Winegrower's Revolt.

Paris, June 19.—Practically a state of seige exists in the district where the winegrowers are in revolt to force the government to enact laws to prevent the adulteration of wine. Today the government began putting in effect its plan to arrest the ringleaders of the revolt, and the military occupancy of the entire district was determined on to prevent outbreaks or attempts to rescue the men marked for arrest. It is doubtful, however, whether the preparations will be sufficient to quell the enormous population engaging in the revolt.

The first arrest was that of Dr. Ferroul, Mayor of Narbonne, who resigned in accordance with the plan of the revolutionists. He was seized in his home at 5 o'clock this morning A strong detachment of troops surrounded the house to keep back the crowd and make it impossible for Ferroul to escape. Ferroul was hustled from the house, placed in a motor car and whirled at full speed to Montpelier, where he was thrown into prison.

Hundreds of the townspeople had remained on guard before the Mayor's house all night to prevent his arrest in case soldiers came. The only thing that prevented a violent demonstration when the soldiers appeared was that Ferroul made a speech to the crowd urging them to remain quiet. No attempt was made to rescue the mayor. An attempt was also made to arrest Marclin Alberto, chief of the wine-growers at Argelliers, and six of his principal aides. A detachment of soldiers surrounded the home of the men wanted, but Alberto and three of his assistants had concealed themselves. The other three were captured. The police, assisted by the soldiers, made a diligent search for Alberto, but could not find him.

Today 6,000 picked soldiers hold the whole wine growing countryside. These troops were selected with care, so as to exclude all men whose homes are in southern France or whose sympathies are with the wine-growers.

Every country road is guarded by the soldiers and in all towns of the district troops were stationed to maintain order. The government continues to manage the telegraph and telephone wires as if a state of war actually existed.

This morning the ministry of war issued a statement that quiet prevails throughout the district and the people are calm, but Parisians generally fear the situation may become desperate at any moment.

Late this evening Albert, leader of the revolt, was arrested.

### Son Attacks Father.

Providence, R. I. June 19.—In defending his mother from an attack by his father today 16-year old Ralph Crumb inflicted injuries on his father from which he will probably die. The father is believed to be dying at the hospital and the son is under arrest. According to the story told by both Mrs. Crumb and her son, the elder Crumb become suddenly insane. Rising from bed he started our of the room and when his wife followed he suddenly seized a chair and attacked her. She screamed for help and Ralph, rushing in, took up a shot gun that stood in the corner and struck his father a teriffic blow on the head, fracturing his skull. The force of the blow broke the gun in two. The Crumbs live at Washington Park, a fashionable district, and are known as well-to-do and a quiet family. The elder Crumb is 41 years of age.

The Kingsman family is very wealthy. The father's will cut off Alfred, but his brothers and sisters set aside a sum of money and placed it in the hands of Birrell, who is cashier of Kingsman National Bank for payment to Alfred in installments. Kingsman brooded over what he regarded as an injustice until his hatred for Birrell became a mania. Late yesterday he sought Birrell in his hardware store and after a struggle shot him dead with a rifle.

### Killed in Automobile Accident.

Cincinnati, O., June 19.—Thomas Trever and Alfred Trever, presidents of the H. and S. Pogue Department store, are dead today as the result of an automobile accident last night. The two merchants had hired a machine to take them home, and when going out Reading road they noticed their own chauffeure in their automobile passing them. The Trevers tried to catch the passing machine, but just as the machine was turning around Thomas Walsh, a laborer, got in front of them. In trying to avoid Walsh the machine struck an iron post, throwing the men out of the machine.

Alfred Trever was killed instantly and his brother suffered a fracture of his skull, from which injury he died within half an hour. The chauffeur was badly hurt.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

### Mysterious Drowning.

Bridgeton, N. J. June 19.—Following the drowning last night of Mary Vennell and the subsequent arrest of her companion, George Evans, Coroner Johnson Hitchner today ordered an inquest to clear up if possible some suspicious circumstances. Shortly before 10 o'clock Evans and Miss Vennell started for a row on the city park lake in a steel non-sinkable boat. The lake was filled with pleasure seekers, while the shores were lined with people, but no one heard the cries for help which Evans said were given, while they were battling for life in the water. Soon after the boat was found partly filled with water, while near by a hat was floating. Evans said Miss Vennell wanted to row and in changing their position the boat sank under them and did not come to the surface. He had great difficulty in freeing himself from the woman who was screaming for help with her arms around his neck, he said. They had gone down twice when he freed himself and began to swim to the shore, then ran all the way home. He did not tell any one. Miss Vennell's body was recovered today and was found to have a number of bruises and cuts on the face.

### Conditions in Russia.

St. Petersburg, June 19.—Further troubles are expected at Kieff, according to today's despatches resulting from the mutiny last night of a battalion of Sappers. The situation is reported to be grave enough to have caused great apprehension on the part of the authorities. While the mutiny was quelled when loyal battalions fired on the mutineers nearly 200 of the rebels escaped. They are desperate, as capture means the death penalty. The mutineers have been doing their best to incite workingmen to join them in a general uprising. Discontent prevails among many of the other troops and two regiments are said to be badly affected. This renders the situation more dangerous, as it is doubtful if the disaffected men will fire on the mutineers and populace.

Later information reaching here shows that the mutiny of Sappers was much more serious than the government had allowed to appear. The rebels were not conquered until several volleys had been fired and fully seventy casualties resulted. The mutineers killed and wounded several of the loyal soldiers in return.

It says the strike has been approved against either or both the Western Union or Postal companies. "Plans for the campaign have been made and the men are ready for a struggle," the statement concludes. Edward Boyce, former President of the Western Federation, but now a wealthy mine owner, was the first witness called to prove the contention. His testimony was not damaging to Haywood.

### Fight a Draw.

Hanley's orders to the sheriff to stop the bout between Mike Donovan, of Rochester, and Joe Walcom, of Boston, here last night, the fight was pulled off before a crowd of more than 2,000. Before the end of the first hour an upturn started that carried prices back about the highest range reached.

### THE ELECTION.

The long-anticipated primary election for a democratic candidate to succeed the late John F. Rixey as Congressman from this district is being conducted today. The friends of the three candidates in the field were virtually at work all last night in making arrangements for today's battle which will doubtless be one of the most hotly contested primaries ever witnessed in this city.

The action of Mr. John F. Ryan, of Loudoun, in withdrawing from the race yesterday, after having in an interview the previous night stated that he would remain in the arena, proved to be a bombshell in the camps of Messrs Carlin and Nicol, such a movement having been unexpected to the friends of these gentlemen, while the impression prevailed that Mr. Ryan's announcement was not unexpected to Mr. Gordon and his friends.

There was considerable flurry among the supporters of the other candidates after it was known that Mr. Ryan was out of the race, and many were the speculations as to the effect his election would have on the other contestants, some believing it would result in strengthening the claims of Mr. Gordon, others that Judge Nicol would be benefitted, while equally as many others supposed that Mr. Carlin's ranks would be recruited by Mr. Ryan's withdrawal.

As soon as the dispatch from Mr. Ryan was received in this city Mr. Carlin, as stated in the Gazette, left for Leesburg. He returned early in the night, and in answering queries propounded to him by his friends, among other things, said:

"I have not seen or heard anything from Mr. Ryan for about a week or ten days, and was utterly astonished to learn of his withdrawal from the contest. It comes when it is impossible to reach the people through the country press, as all of the weekly papers have finished their issue. I have heard rumors for the past week or ten days to the effect that Mr. Ryan would at the last moment withdraw, but I have been unwilling to believe that he would effect his withdrawal in the manner he has, leaving only one day's notice to his friends and supporters, many of whom in the rural districts will never hear of his withdrawal, or hearing it will refuse to believe it. Especially is this true because of Mr. Ryan's public statement in the morning press of yesterday that he was in the fight to the finish, and yet on the same day of this publication, he announced his withdrawal. I have just returned from Loudoun county and the people of that county believe his withdrawal to be in the interest of my opponents, and I have received hundreds of assurances that they would not be influenced in this manner. I am unwilling to believe that Mr. Ryan has entered into any deal, but am inclined to the belief that he has lost his head at the critical moment. In any event, whatever the intention of his withdrawal, my assurances are that I will receive more than my share of the votes which ordinarily would have gone to Mr. Ryan. I am, therefore, confident that my nomination is assured."

Judge Charles E. Nicol, in reply to a question as to what effect the withdrawal of John F. Ryan from the congressional campaign would have upon the election made the following statement at Manassas last night:

"I feel certain that the withdrawal of Ryan secures my nomination beyond a reasonable doubt. I have warm friends in Ryan's county who were going to vote for him for personal reasons and through county pride, who will now give me their hearty support. In Fauquier county Ryan's friends will also support me."

Mr. Ryan has made the following statement:

"Notwithstanding my denial Monday night of the report that I had withdrawn as a candidate for Congress from the Eighth district, I find on investigation that my vote in the district is now demoralizing by reason of such reports which have been in circulation for some days. And as many county people do not get the daily papers and are not within reach of telephone lines and probably would not hear of my denial, I deem it best to now withdraw from the contest and leave my friends free to vote for some other candidate. In taking this action I am not influenced by any distrust of the voters of Loudoun county, whose loyal support I have with but few exceptions. I desire in this connection to extend my sincere thanks to the friends of the district for their loyal support."

The following were among the dispatches received in this city during the day:

Leesburg, Va.

Hon. C. C. Carlin, Alexandria, Va.:

Since Ryan withdrawal you will receive seven hundred in Loudoun. Small vote; people disgusted.

PAUL W. GARRETT.

Culpeper, Va.

Frank Carlin, Alexandria, Va.:

Carlin eight hundred votes in Culpeper, in spite of combination.

RALEIGH T. GREEN.

The Plains, Va.

C. C. Carlin, Alexandria, Va.;

Ryan's vote splitting between Carlin and Gordon. None of it going to Nicol.

R. S. COCHRAN.

Friends of Messrs. Nicol and Gordon have also received information from various points in the district which has been regarded as encouraging for their respective favorites.

The following shows the number of votes cast in this city at 4 o'clock.

| | |
|---|---|
| First ward | 290 |
| Second ward | 329 |
| Third ward | 254 |
| Fourth ward | 259 |
| Total | 1,132 |

The vote cast in this city for Clerk of Court on October 12, 1905, at 3:30 p. m. was as follows:

First ward, 281; Second, 322; Third, 233; Fourth, 225; total, 1,061.

The vote during the entire day was as follows:

First ward, 340; Second, 384; Third, 282; Fourth, 271; total, 1,277.

At 3 o'clock this evening it was estimated that nearly 1400 votes would be cast in this city, and Mr. Carlin's friends claim over 1000 of these, the remainder being chiefly for Judge Nicol.

A telephone message received at this office at 3 o'clock this evening from the county court house stated that the vote cast up to that hour was light but that the vote will come in after the cool of the evening. The message stated that Judge Nicol was in the lead, so far as is known, in Arlington and Jefferson precincts. Advices from Washington district are to the effect that Carlin is decidedly in the lead there.

A telephone message from Fairfax stated that at 3 o'clock 60 votes had been cast there, all of which were for Nicol, with the exception of six. The message stated that reports from Prince William were to the effect that that county would go almost solidly for Judge Nicol.

In West End and Pulman districts at 3 o'clock 60 votes had been cast, of which it is said, 50 were for Carlin.

At 3 o'clock this evening Mr. Carlin had received later reports from Culpeper, Fauquier and Loudoun counties giving him encouraging accounts of the election.

Up to 3 o'clock this evening reports from all over the district received here by the friends of the several candidates were to the effect that each would be nominated, so, as a matter of fact, no one knows any more now as to the result than he did yesterday or a month ago.

The closing exercises of Hallowell School, colored girls, will be held tomorrow morning.

### MEETING OF TRADES COUNCIL.

Mr. William B. Fitzgerald, of Troy, N. Y., a member of the general executive board of the Amalgamated Association of Street and Electric Railway Employes of America, and Samuel De Nedrey, of Washington, general organizer of the American Federation of Labor, were present at a joint meeting of the Trade Council of this city and the members of a union of electric railway employees.

It is understood that it was decided to hold a meeting of the electric railway employes at midnight Thursday night, in this city, and a public mass meeting in the Opera House Saturday night when the relations of the railway men and their employees will be discussed and certain action taken.

At a meeting of the Alexandria local of the Brotherhood of Railway Trainmen last night resolutions were passed indorsing the action of the electric railway men and tendering them moral support.

### POLICE COURT.

[Justice H. B. Caton presiding.]

The following cases were before the court this morning:

A young white man charged with witholding money belonging to a labor union, had his case continued. [This case has been in court during the past two weeks, but cannot be decided for want of certain evidence.]

Two white men, charged with disorderly conduct and fighting, were fined $2.50 each.

William Stewart, Samuel Cumpton and Richard Spotswood, all colored, charged with destroying property of Marina Butler, were turned over to the authorities of Alexandria county.

### PERSONAL.

Miss Mary Mays, daughter of Captain George W. Mays, is visiting the Jamestown Exposition.

Mrs. Harry S. Eotwisle left this morning for Manchester, Va., to spend the summer with her parents.

Col. F. L. Smith has returned from Lexington where he went to attend a meeting of the board of visitors of the Virginia Military Institute, of which he is a member.

Mr. J. H. Fisher, who has been visiting at Fort Schuyler, N. Y., was in the city today.

Judge Nicol went to Leesburg today to look after his interest at the polls there.

### CAR JUMPED THE TRACK.

A car attached to a northbound freight train on the Richmond, Fredericksburg and Potomac Railway jumped the track yesterday evening at Powell's Creek and blocked both tracks, delaying traffic for about three hours. No one was injured, but the car side-wiped the telegraph office at that point and the operator barely escaped being caught in the wreckage. A wrecking crew soon cleared the tracks.

### RETURNED HOME.

The Alexandria Light Infantry returned home from Jamestown at an early hour this morning. Apart from the unfortunate incident of a few days ago during which Lieutenant Demaine was subjected to gross indignity on the part of a policeman for asking a civil question, the members enjoyed their trip.

Excitement concerning the arrest of Lieutenant Demaine and three enlisted men of the Seventieth Regiment by special police of Norfolk county, continues to increase, and the action of Governor Swanson and General C. C. Vaughan, commanding the brigade, is awaited with interest. The officer and the men who were charged with being disorderly and resisting an officer in the performance of his duty, were proved to be absolutely innocent, the sheriff of the county requesting their release, and the presiding justice saying from the bench that a great mistake had been made.

Lieutenant Demaine since his arrival home has given a succinct version of the affair, and the arrest of the men seems to have been one of the most wanton outrages ever committed by men acting under a little brief authority. After the men had been released General Vaughn sent for Lieutenant Demaine and complimented him upon his coolness and good judgment during the excitement that followed the arrests, and told the lieutenant that by his action he prevented more serious scenes.

Lieutenant Demaine was endeavoring to prevent excitement among the soldiers when he was taken in custody. The vilest epithets were used toward him by the special officer.

The alleged brutal acts of the special constables during the excitement, which they had brought on themselves, is meeting with just condemnation.

General Vaughan has instructed Major Shelton, judge-advocate of the brigade, to bring the case before the grand jury, and to press the affair to the end. The policeman not only struck Sergeant Coiner and Private Selph, but used steel pinchers of the nature of handcuffs on Walker, calling them unprintable names and subjecting them to every imaginable indignity.

### FIGHT.

Some excitement was caused in the vicinity of Prince and Royal streets about 6 o'clock yesterday evening by a fight between two men who had been passengers on an electric train from Washington. Officer Knight arrested the belligerants and they left collateral at the station house for their appearance this morning. When the case was called the evidence showed that the fight was the outcome of a dispute between the two men while they were on the train. They were fined $2.50 each.

### THEOLOGICAL SEMINARY.

The closing exercises of the Episcopal Theological Seminary will begin tonight when Rev. Jules Provost, D. D., will deliver an address before the students of the Missionary Society.

Tomorrow will be Graduation and Alumni Day to be followed by the alumni dinner. At 3:30 in the evening an address will be made by Rev. A. B. Kinsolving in acceptance of the chancel window.

### POLICE COMMISSIONERS.

The City Council will be called upon to elect a Police Commissioner from the Fourth ward shortly in place of Mr. E C. Graham, who, according to the recent division, now resides in the First ward. Capt. Albert Bryan and Mr. William Rogers are mentioned in connection with the position.

### Stabbed by a Young Woman.

Enraged because some roguish schoolboys had tumbled her over while playing a street piano in the lower West Side of New York, Philomena Castino, a young Sicilian girl, drew a stiletto from the folds of her dress and fatally stabbed Charles McCarthy, a young man, in the breast. McCarthy will probably die. The girl was arrested with her companion Theresa Christopher, who is held as a witness.

Philomena was grinding out lively airs to the delight of a swarm of children who were dancing to the music on the sidewalk. Theresa was collecting the few pennies from the crowd. A boy was seen to playfully shove McCarthy, who was standing on the curb, out into the street. McCarthy lost his balance and bumped into the girl, who was knocked down.

Her face distorted with rage. Philomena leaped to her feet and drawing a long, thin stiletto from her dress, plunged the blade into McCarthy's breast. The girls started to run, dragging their heavy street piano behind them, but the school children closed about them and hindered their progress until a policeman arrived.

The wounded man and the two girls were taken to the station-house, where Philomena again tried to stab McCarthy as he lay on the station-house floor. The girls were finally quieted and taken to cells. Neither of them is much over 20 years of age.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptons only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative sold by E. S. Leadbeater & Sons.

### Badly Mixed Up.

Abraham Brown, of Winterton, N. Y., had a very remarkable experience; He says: 'Doctors got badly mixed up over me; one said heart disease; two said it was kidney; the fourth, blood poison, and the fifth stomach and liver trouble; but none of them helped me; so my wife advised trying Electric Bitters, which are restoring me to perfect health. One bottle did me more good than all the five doctors prescribed." Guaranted to cure blood poison, weakness and all stomach, liver and kidney complaints, by E. S. Leadbeater & Sons, druggist, 50c.

### Salesman Murdered.

The dead body of Charles Freeman, a traveling salesman, representing a prominent packing concern at Keystone, McDowell county, W. Va., was found Monday. His throat had been cut and his pockets had been relieved of money and other valuables.

Yesterday evidence was secured which pointed strongly to the fact that a number of colored policemen were the guilty parties. Warrants were sworn out yesterday for J. F. Johnson, Lum Doss and Kid James. The feeling became so strong against these men that it was decided to carry them to Welch.

Last night the mayor of Keystone removed all the other colored policemen from the force. For a time it looked as though a race riot was imminent.

Freeman was a prominent Odd Fellow, and members of that order have made up a fund for the prosecution of the perpetrators of the crime. A clash between the whites and the blacks at Keystone would be no surprise.

### A Dangerous Deadlock.

that sometimes terminates fatally, is the stoppage of liver and bowel functions. To quickly end this condition without disagreeable sensations, Dr. King's New Life Pills should always be your remedy. Guranteed absolutely satisfactory in every case or money back, at E. S. Leadbeater & Son's drug store. 25c

## Notice to City Taxpayers.

Collector's Office, June 17, 19 7.

Notice is hereby given that the tax bills for 1907 are now in the hands of the collector. The attention of parties interested is respectfully called to the following extract from the revenue bill of that year:

"Upon all bills paid in full by the 1st day of July, 1907, the Collector of Taxes shall allow a discount of ten per cent., and on all bills paid by the 1st day of September, 1907, he shall allow a discount of five per cent., and on all bills not paid on the 1st of December, 1907, there shall be assessed and collected a penalty of five per cent. upon the amount of said bills, and on all bills remaining unpaid on the 1st day of June, 1908, damages at the rate of six per cent. per annum shall be paid."

Taxpayers would do well to call and pay at once in order to avoid the rush and crowd usually present on the last days in which the discount is allowed.

Bring a list to make sure you get bills for all your property, as the collector will not be responsible or allow the discount after the time fixed by law.
